Our Capabilities

At BalmeAyas Private Limited, we combine advanced manufacturing technology with precision engineering expertise to deliver exceptional results across diverse industries. Our state-of-the-art facility houses cutting-edge CNC and EDM machines, enabling us to handle complex projects with micron-level accuracy.

Industries We Serve

Automotive

Engine components, transmission parts, custom fixtures

Industrial Manufacturing

Machine components, tooling, production parts

Aerospace

Precision components, brackets, specialized parts

Medical Devices

Surgical instruments, implant components

Tool & Die

Injection molds, stamping dies, custom tooling

Electronics

Heat sinks, enclosures, connector components

Material Capabilities

Metals: Aluminum alloys, Stainless steel, Carbon steel, Titanium, Brass, Copper, Tool steels (H13, D2, P20)

Plastics: ABS, Nylon, PEEK, Delrin, Polycarbonate, HDPE

Specialty Materials: Inconel, Hastelloy, Ceramic composites, Graphite

Our Expertise & Services

Delivering precision-engineered solutions with cutting-edge technology and expert craftsmanship

CNC Machining

High-precision milling, turning, and multi-axis machining for complex geometries

EDM Services

Wire and sinker EDM for intricate cuts and complex cavity machining

Prototype Development

Rapid prototyping and small batch production with quick turnaround

Tool & Die Making

Custom tooling solutions and precision die manufacturing

Quality Assurance

Comprehensive inspection and quality control processes

Engineering Support

Design consultation and manufacturing optimization

Why Choose Balme Ayas?

Precision Excellence

Tolerances down to $\pm 0.002\text{mm}$ with consistent quality

Advanced Technology

State-of-the-art CNC and EDM equipment

Fast Turnaround

Quick delivery without compromising on quality

Expert Team

Skilled engineers and machinists with years of experience
